

# IMPORTANT SAFETY RECALL

Burley Trailers - Models and Model Years: **2009 d'Lite ST** and **2009 Solo ST**

## WHY YOU ARE RECEIVING THIS NOTICE:

Burley Design, in conjunction with the United States Consumer Products Safety Commission, is conducting a voluntary recall of the above identified bicycle trailers. Our records indicate that you may have purchased either of these products sometime between November 30, 2008 and July 24, 2009.

**The internal part of the axle assembly of these trailers may come loose, causing one wheel to separate from the trailer. This can pose a risk of injury to the child occupant or bike rider.**

The images below are intended to help to identify recalled ST trailers. Affected serial numbers begin with D939 or D948.

## WHAT YOU SHOULD DO:

The defect of the internal part of the axle assembly cannot be seen, therefore all owners should **immediately** stop using the trailer and contact Burley to receive a free axle replacement kit or to locate a retailer to assist with the free repair. If you bought either trailer for a friend or family member who does not live with you, or if you have sold the trailer to someone, please advise us of their name and address immediately so that we can send them the attached notice. If you have disposed of the trailer please advise us of this information as soon as possible so that we may correct our records. If you know of anyone who bought either product, or may be using them, please let us know their name and address as well so that we can send the enclosed notice to them. Please feel free to share the website below with all the people you know who might have these trailers.

**If you have any questions, please contact Burley at (800) 311-5294  
between 8 a.m. and 5 p.m. PST Monday through Friday or visit the firm's website at**

We appreciate your assistance in communicating this safety notice to other owners of these trailers.

Thank you for your cooperation.

Sincerely,  
Burley Design
