NEW PRODUCT INTRODUCTION

Popular trailercycles and ski kit return

Customers asked for them and Burley said “yes!” 2011 marks the return of three of our most popular products – the Kazoo and Piccolo trailercycles and the We! Ski Kit.

The **Piccolo** (7-speed) and **Kazoo** (1-speed) trailercycles allow your child to learn to ride while staying safely behind you during the trip. Both trailercycles adjust easily for growing children and feature an aluminum frame and the patented Burley hitch design for durability, high performance and a solid ride. The new **Burley Tailwind Rack**, included with both, is designed to securely connect the Trailercycle to the lead bicycle or work as a heavy-duty rear bike rack.

See all the features for the Piccolo, Kazoo and Tailwind Rack on page 18 and 19.

The **We! Ski Kit** transforms your Burley bike trailer into a safe and fun way to bring your child, pet or gear along for a snowy adventure. It's the perfect accessory for cross country skiing, skate skiing, or snow shoeing!

The non-wax skis of the Burley We! Ski Kit are custom made by Alpina® and attach with a push-button system to the wheel axle. The adjustable, lightweight tow bars connect to the trailer side mounts and lead to a padded hip harness.

See the features for the We! Ski Kit on page 20.

TRAVOY CONTINUES TO EXCEL

Wins another award for innovation

On the heels of claiming the 2010 EUROBIKE Gold Award, the Travoy recently received another trophy for the mantle, this one from the FietsVAK bicycle industry fair in Rosmalen, North Brabant (Netherlands). After narrowing 33 entries down to eight finalists, the revolutionary Travoy commuter trailer was one of four products to win a Bicycle Innovation Award.

FietsVAK, celebrating its 20th anniversary, took place over three days in January at the Autotron Rosmalen, drawing over 6500 visitors and 134 exhibitors.

The Travoy urban trailer provides a safe, hassle-free way to haul up to 60 lb. of cargo, and easily hitches to the seatpost of any bike. After detaching, it easily converts to an on-the-go rolling cart.

The trailer comes with a cargo bag, tie-down straps, and an innovative hitch assembly. Additional bags are available that allow for easy tow of office necessities or a trip to the supermarket.

BURLEY EXPANDS INTERNATIONAL DISTRIBUTION

Worldwide partnerships continue to grow

International availability of Burley's award winning bicycle trailers and accessories is growing rapidly with the recent announcement of new distribution partners in Poland, Japan, Korea, Hong Kong, Israel, and Italy.

Burley products will also soon be sold in all Evans Cycles retail outlets throughout the UK, via UK cycling product distributor Extra UK Ltd. According to Project Velo, bicycle retail sales in the UK have grown by more than 15 percent in the last year.

As a green alternative to automobile transportation, bicycling is gaining popularity across the globe, with the global market for bicycles forecasted to exceed \$77.7 billion by the year 2015. Adult bicycles represent the largest product group within this market.

Much of this growth can be found in Europe, where the bicycle market is supported by several city governments that have created bike-friendly roads to encourage cycling.

According to a new report from Global Industry Analysts, governments worldwide are also aiding the bicycle industry through various bicycle promotion projects and policies. Further, sharp increases in gasoline prices are compelling people to adopt cycling for commuting short distances in cities.

Bicycling in Japan specifically has grown immensely over the past 20 years, where more commuters in urban areas like Tokyo have been choosing to bicycle to work instead of using trains and cars, citing health, environmental, and cost concerns.

Launched in 2010, Burley's Travoy bike trailer (pictured) offers these growing commuter populations with a safe and hassle-free way to haul a change of clothing, stack of documents, or a load of groceries home from the market.

TRAVOY GOES WELL WITH ELECTRIC BIKES

OHM Cycles now offering Travoy as accessory

As popularity and sales of electric bicycles grow worldwide, some retailers are now packaging Burley's Travoy bike trailer with their "e-bikes."

OHM Cycles, based in Vancouver, Canada, manufactures and sells its branded e-bikes through dealers in Canada and the US. OHM recently introduced the option to purchase the Travoy with an electric bike, touting the trailer as "a safe, hassle-free way to haul and transport almost anything with your OHM Electric Bike."

As it does with traditional bicycles, the Travoy fits perfectly onto an e-bike, hitching to the seatpost or rear carry rack. An e-bike's power also comes in handy when using the Travoy to pull heavier weights over long distances or up steep hills, allowing the rider to haul boxes, books, or other gear around town without impacting the environment or breaking a sweat.

"Our partnerships with OHM Cycles provides us with an outstanding opportunity to introduce the Travoy to a growing cycling demographic," said Burley CEO Mike Coughlin. "More people are turning to electric bikes for a greener commute, and we're excited to be a part of that trend."

With advances technology, e-bikes are sportier and weigh less. This, coupled with cost savings for commuters has increased demand, leading to more e-bike manufacturers. China alone has an estimated 120 million electronic bikes on its roads, up from a few thousand in the 1990s. According to BikeRadar.com, electric bike sales are estimated to hit 30 million worldwide in 2011, a 50 percent growth from the 20 million sold in 2007.

RENTAL CUB INTRODUCED AT CENTER PARCS UK

Enhanced features make trailer perfect fit for rental market

Guests at any of the Center Parcs UK holiday village resorts will enjoy using a new, easier to maintain version of Burley's popular Cub bicycle trailer.

While the rental-specific model, called the Burley Rental Cub, retains all of the features of the original Cub trailer, including an elastomer suspension system, insulating plastic base, reclining seats, and tinted side windows, it offers some additional features that are better suited for the extra wear and tear found in rental situations.

Perfect for UK vacationers wanting to bike ride with their kids throughout Center Parcs beautiful forests, the Rental Cub's new attributes include fabrics higher in durability and enhanced waterproofing than the conventional Cub trailer, along with non-absorbent seat cushions.

"We are proud to provide Center Parcs visitors with a safe and convenient way to bring their children along for a scenic bike ride," said Burley CEO Mike Coughlin. "This is a dynamic partnership that provides families with a comfortable trailer that kids simply love. Our design team really improved the ease of maintenance for the rental market."

Each Center Parcs UK resort location sits within a forest filled with trails for bicycle riders of all ages. These spectacular locations include Whinell Forest in Cumbria, Sherwood Forest in Nottinghamshire, Elveden Forest in Suffolk, and Longleat Forest in Wiltshire.

"Since nearly everyone at our resorts rides bikes, we needed a bicycle trailer that would be extremely durable, easy to clean and maintain, and give kids a smooth ride. We've found that in Burley's Rental Cub," said Jane Baxter, Category Buyer at Center Parcs.

Family vacations are on the rise in 2011. TripAdvisor recently announced the results from its annual family travel survey of more than 1,600 U.S. travelers, with 83 percent of respondents planning to take at least one family vacation this year (up from last year's 79 percent). A similar survey done by WeJustGotBack.com, a family vacation planning website, showed a whopping 99 percent of their respondents taking at least one family vacation in 2011.

Our Rental Cub is used at the UK resort:

BURLEY BACKGROUNDER

Burley's love of bicycle trailers dates back more than 30 years. In 1978, cycling enthusiast Alan Scholz opened a business in Cottage Grove, Oregon (USA) called Burley Bike Bags. Determined to live a car-free lifestyle, Alan designed a bicycle trailer from old swing-set parts to haul his products to the Saturday Market in the city of Eugene, 50 kilometers away. This marked the beginning of an entirely new way to travel. Since then, the designers at Burley have been perfecting his invention with passion, drive and dedication. That's why Burley is known for making the safest, most durable trailers on the road.

Since those early days, Burley Design has helped people rethink transportation with great designs that help people do more on their bikes. Burley Design has developed a line of child, pet, and cargo trailers that exceed the safety testing standards, only using materials that are non-toxic and safe for children.

Burley has long been recognized as the industry quality and safety leader, helping to develop the ASTM (American Society for Testing and Materials) safety standards for bicycle trailers. Burley's rigorous in-house testing protocols are among the toughest in the industry, in some cases, far exceeding the minimum ASTM standards. The company performs safety testing of its child trailer products during the design phase, to optimize seat, harness and frame safety and performance.

Today, Burley Design produces a line of six child trailers, two touring/cargo trailers, one pet trailer, and the revolutionary Travoy™ Urban Trailer System.

Burley Company Information

President:

Michael Coughlin

Mission:

To promote active outdoor fun for our employees, customers and community by developing outdoor products that can be relied upon for superior functional design, safety and many years of use.

Retailers:

Size Folded L x W x H (in)	40.0 x 29.8 x 15.4
Size Folded L x W x H (cm)	101.6 x 75.6 x 39.1

RENTAL-SPECIFIC FEATURES

Simple

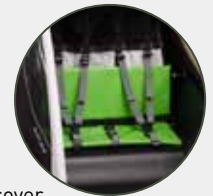

- Customized model ready for rental use—no extra conversion kit needed
- Bolt-on hitch compatibility using Forged Hitch (ordered separately) or Classic Hitch (ordered separately)
- Bolt-on wheels/axles
- Unnecessary parts removed to reduce maintenance (brake & handlebar)

Durable

- 2-in-1 waterproof cover made of long-lasting tarpaulin material, with double sided TPU coating
- Clear vinyl front window - no elastic, snaps, or zippers to wear out
- Cover is bolted to top of frame to eliminate dragging cover on the ground
- Double-wall HDPE bucket is quiet and extremely robust

Easy-to-Clean

- Plastic bucket washes out quickly with five drain holes
- Non-absorbent cover and seat padding is easily wiped-down for cleaning, prevents mold, and dries quickly

Other Benefits

- Replacement parts are available to maintain your trailer each season
- New green color for high visibility
- Compatible with Burley We! Ski Kit

STANDARD ON EVERY BURLEY CHILD TRAILER

- Designed and tested to exceed ASTM F1975-09 safety standards
- Full internal roll cage

- Front-to-rear fold-flat design
- Reflective materials and reflectors (front, rear and wheels)
- UV protected windows
- Recessed helmet pocket
- Safety flag
- Interior pockets
- Rear cargo area

Our Rental Cub is used at the UK resort:

The Rental Cub features an ultra-durable plastic base that increases insulation and minimizes noise. Its new hi-visibility cover will last and last.

Designed specifically for touring, the Nomad encourages comfortable wanderlust with its large carrying capacity and weatherproof cover. It attaches quickly and easily, with a balance point designed to reduce torque on the bike. It has a cargo space of 6407 cubic inches, carries up to 100 pounds, and weighs less than 15 pounds.

NOMAD SPECIFICATIONS

Capacity (lb/kg)	100.0 / 45.4
Weight (lb/kg)	14.8 / 6.7
Interior height (in/cm)	16.8 / 42.5
Interior width (in/cm)	16.5 / 41.9
Cargo space (liters)	105.0
Wheel size (in/cm)	16.0 / 40.6
Size Open L x W x H (in)	32.4 x 26.8 x 22.8
Size Open L x W x H (cm)	82.3 x 67.9 x 57.9
Size Folded L x W x H (in)	32.4 x 21.5 x 6.5
Size Folded L x W x H (cm)	82.3 x 54.6 x 16.5

KEY FEATURES OF THE NOMAD

- Two-wheel design keeps the trailer upright and stable
- Large carrying capacity with removable interior space divider
- Forged aluminum hitch
- 16" spoked alloy wheels
- Two divided mesh pockets for small items
- Eight interior and four exterior D-rings to tie down gear
- Front and back gates that lower for longer loads
- Quickly disassembles for compact transport and storage

ACCESSORY KITS AVAILABLE

- Nomad Cargo Rack

The **Nomad** makes touring a joy. It features a hitch that's ideally positioned to provide superior tracking and stability.

The utilitarian choice for pulling larger loads. Haul up to 100 pounds easily with a balance point designed to reduce torque on the bike, and a hitch that is ideally positioned to provide superior tracking and stability. Its open front and back makes it easy to haul long loads, and includes two adjustable tie-down straps to keep everything secure.

KEY FEATURES OF THE FLATBED

- Two-wheel design keeps the trailer upright and stable
- Four interior D-rings to tie down gear
- Two adjustable tie-down straps included
- 16" spoked alloy wheels
- Quickly disassembles for compact transport and storage
- Forged aluminum hitch

FLATBED SPECIFICATIONS

The **Tail Wagon** makes your dog part of the family fun.

The Piccolo trailercycle allows your child to learn how to ride while staying safely behind you during the trip!

It features a versatile 7-speed twist grip shifter, adjusts easily for growing children, and offers superior stability with Burley's patented aluminum ball-bearing guided hitch. Hitch securely mounts to the Burley Tailwind™ rear rack.

KEY FEATURES OF THE PICCOLO

- Weighs 18.0 lb/8.2 kg
- Lightweight aluminum frame for durability, high performance and a solid ride
- 7-speed twist grip shifter
- Front splash guard
- Innovative Burley patented hitch system with ball-bearing guided pivots to provide shimmy-free performance
- Hitch sits perpendicular to the ground, providing superior handling and stability
- Double locking mechanism for extra security
- Stable and snug in-line handling with over-axle pivot attachment
- Comes with aluminum Burley Tailwind Rack that allows for side panniers
- Adjustable handlebar and seat post
- Safety flag and both wheel and rear reflectors for visibility
- 20-inch wheel for smooth rolling
- Recommended for children 4 to 10 years old and up to 85 lb/38.5 kg, with a recommended 2-1 adult weight-to-child weight ratio

PICCOLO SPECIFICATIONS

Capacity (lb/kg)	85 / 38.5
Weight (lb/kg)	18.0 / 8.2
Wheel size (in/mm)	20 / 406
Frame Material	Aluminum

TAILWIND™ RACK SPECIFICATIONS

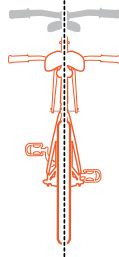

A heavy-duty rear rack made for towing Burley trailercycles, but also functions as a touring-quality cargo rack.

Rack Weight (lb/kg)	1.8 / 0.8
Rack Capacity (lb/kg)	65 / 30
Rack Material	Aluminum

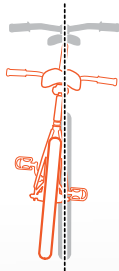

Trailercycle includes one black rack. Additional racks available in black and silver.

Burley Trailercycles stay in line with the lead cycle.

Other trailercycles lean away from the lead cycle making it more difficult to control the bicycle.

Towbar removes for compact storage and transport.

Patented Hitch

The **Piccolo's** lightweight aluminum frame offers durability, high performance and a solid ride. A **Burley Tailwind Rack** is also included for towing the trailer cycle.

The Kazoo single-speed trailercycle lets your child learn how to ride while staying safely behind you during the trip! It adjusts easily for growing children and offers superior handling, tracking and stability with Burley's patented aluminum ball-bearing guided hitch. Hitch securely mounts to the Burley Tailwind™ rear rack.

KEY FEATURES OF THE KAZOO

- Weighs 16.5 lb/7.5 kg
- Lightweight aluminum frame for durability, high performance and a solid ride
- Single speed
- Front splash guard
- Innovative Burley patented hitch system with ball-bearing guided pivots to provide shimmy-free performance
- Hitch sits perpendicular to the ground, providing superior handling and stability
- Double locking mechanism for extra security
- Stable and snug in-line handling with over-axle pivot attachment
- Comes with aluminum Burley Tailwind Rack that allows for side panniers
- Adjustable handlebar and seat post
- Safety flag and both wheel and rear reflectors for visibility
- 20-inch wheel for smooth rolling
- Recommended for children 4 to 10 years old and up to 85 lb/38.5 kg, with a recommended 2-1 adult weight-to-child weight ratio

The Burley We! Ski Kit transforms your Burley bike trailer into a safe and fun way to bring your child, pet or gear along for a snowy adventure. It's the perfect accessory for cross country skiing, skate skiing, or snow shoeing!

The non-wax skis of the Burley We! Ski Kit are custom made by Alpina® and attach with a push-button system to the wheel axle. The adjustable, lightweight tow bars connect to the trailer side mounts and lead to a padded hip harness.

WE! SKI KIT SPECIFICATIONS

Skis (in/cm)	43.3/110
Waist Belt Size (in/cm)	24.5 to 51.5/ 62 to 130
Tow Bars Extend (in/cm)	75, 79, 83 and 87/ 190, 200, 210 and 220
Tow Bars Retract (in/cm)	55/139

KEY FEATURES OF THE WE! SKI KIT

- Skis attach with push-button system
- Custom wood core, non-wax skis
- Multi-position adjustable lightweight aluminum tow bars
- Tow bars securely attach to trailer with locking pins
- Highly supportive padded hip harness with adjustable attachment and sizing, washable breathable fabric, and pockets for keys, phone, and water bottle

COMPATIBLE WITH MODELS:

- 2007 and newer D'Lite, Solo, and Encore
- 2008 and newer Cub and Tail Wagon
- 2009 and newer Nomad and Flatbed

We! Ski Kit shown with Burley D'Lite (right) and Burley Cub® (below), trailers not included.

The **We! Ski Kit** features a water bottle holder, key and phone pocket, and adjustable tow bar for proper fit and feel.

HITCH DETAILS

Standard Forged Hitch

- Included with all Burley trailers
- Works with most bikes
- Mounts to your existing quick-release or nutted axle
- Works with disc brake and full-suspension bikes
- Stays attached to bike when trailer is not in use

NOTE: Not compatible with Breezer dropouts.

Alt Adapter for Forged Hitch

- Threads onto left side of existing wheel's quick release (QR) or nutted axle
- Spaces forged hitch out away from interfering dropouts
- Works with carbon frames, internally geared hubs and hooded dropouts
- Stays attached to bike when trailer is not in use

Classic Hitch

- Works with most bikes
- Works with Breezer-style dropouts
- Attaches to bike frame rear triangle
- Stays attached to trailer tow arm
- Easily transfers from one bike to another

NOTE: Not compatible with disc brakes, rear suspension or mono-stay.

Standard Forged Hitch

Classic Hitch

The Travoy helps you do more on your bike. Providing a safe, hassle-free way to haul and transport almost anything, from a week's worth of groceries to a change of clothes for the office. It hitches to the seatpost of any bike and rides at a 45-degree angle, redistributing the load's weight for easier traveling. Upon arrival, easily detach the Travoy and with a twist of the wrist, convert it to a rolling cart to wheel along with you.

KEY FEATURES OF THE TRAVOY

- Weighs just 9.8 lb, carries up to 60 lb.
- Folds to briefcase size
- Quick setup
- Attaches and detaches in seconds
- Provides a safe, secure solution for bike trips involving multiple stops
- Better stability than standard panniers or backpacks
- Customize with full line of accessory bags for shopping or commuting
- 12" black push-button wheels

ACCESSORY KITS AVAILABLE

- Upper and Lower Market Bags
- Upper and Lower Transit Bags
- Rain Fly
- Duffle Bag
- Dry Bag
- Hitch
- Rack Mount
- Shoulder Strap
- Universal Bag Clips

The Burley Travoy™
Winner of the 2010
EUROBIKE Gold Award

GOLD
AWARD 2010

The **Travoy** comes complete with a basic cargo bag (also stores the folded Travoy), tie-down straps for bulkier cargo, and the revolutionary hitch assembly.

Hitch makes for quick on-off convenience.

Put together the perfect go-anywhere solution with our full selection of accessories and integrated bags designed especially for the Travoy.

Hitch Mounts to seat post and allows easy, one-handed attachment and removal of the Travoy.

Rain Fly Features a light tab and reflective trim for extra visibility.

Rack Mount Enables the Travoy Hitch to mount on a rear rack, rather than the seat post.

Shoulder Strap Compatible with all Travoy bags. Included with upper Transit Bag.

Transit Bags Make commuting a breeze with room for your computer, clothes, shoes and more. Laptop sleeve included in Upper Transit Bag.

Dry Bag With a roll top and waterproof construction, this bag protects your gear with its 51 L capacity.
